HILLSBORO, OR--For the very first session of our new Family Time program parents and children had the opportunity to work together to build birdhouses, toolboxes, trivets, and heart baskets with supplies and staff from the Hillsboro Home Depot. The four employees from Home Depot arrived with materials, hammers, and paint for a fun, and loud, evening of building. 10 moms and dads and their kids worked together diligently and came away with new family treasures to share.

The Family Time program, created by Gracie Garcia and Juan Carlos Aguilera, helps solidify and maintain the bonds between families. The Home Depot activity was the first of many fun and engaged nights these families will share at Bienestar.
