* Net improvement in subjects refers to the number of subjects students improved or worsened their grades in.

** Homework grade is referred to as “Homework work ethic” by the Hillsboro School District and appears on the students’ reports cards.

*** The GPA Equivalent has been created by Bienestar for evaluation purposes. The school district uses four “letter grades” for academic evaluation.

A grade of “E” signifies exceeds standards, “M” signifies meets standards, “NM” signifies nearly meets standards, "NY" signifies not yet meeting standards, "X" signifies not yet assessed, and "MI" signifies modified instruction.

Bienestar has created a GPA by using a 4.0 scale and assigning a point value for each letter grade. “E” = 4 pts.,

“M” = 3 pts., “NM” = 2 pts., “NY” = 1 pt. This system should not be equated with similar 4.0 scales based on a standard “A-F” grading system.

Student has special needs and only received letter grades for writing

^^ Student has special needs and received modified instruction with no letter grades.
